

## **University Guidance**

Recognized as the leader in international education, the International Baccalaureate (IB) Diploma Programme fosters the knowledge, skills and attitudes that enable students to excel in university.

The IB works with universities in nearly 140 countries to promote broader recognition of the Diploma Programme for the 120,000 Diploma Programme graduates entering university each year.

The school provides students with career guidance service. Although the majority of our students attend universities in Lithuania, we provide students with advice, support and information about universities abroad.

With a focus on career exploration and preparation for post-secondary educational opportunities, the guidance staff (social pedagogue and psychologist, colleagues from KTU Career Centre) works with student groups and with each student on their course choices, career possibilities, as well as university requirements and applications.

Furthermore our school receives visits from different university admissions representatives, students also attend International Education Fair in Vilnius, have meetings with school alumni and different specialists who introduce students with opportunities to start their career in certain field.

## **University Applications**
